Safeguarding

Suitable People

Staff: child ratios

Information and records

As the manager of the setting I aim to be super numery so in all cases of staff absence I will cover within any room that I may be required within. If ratios can still not be maintained by myself alone children will be sent home.

If I am absent Craig will step up to the role of nursery manager and our senior practitioner to the role of support manager.

If illness or emergency occur the children's well being will be of great importance, it is paramount that they are experiencing consistency and feel comfortable within the setting. Suitable arrangements may need to be used such as; re-grouping of children, re-organising of rooms and activities and re-deploying other suitable people.

Devised January 2014
